

TECHNICAL MEETING

Thursday 28 may 2009

Salle de conférence ICSI, 5 rue E Monso TOULOUSE

- 9h00 Welcome
- 9h15 Introduction to ENSIACET (J.M. LeLann head of Engineer High School)
- 9h30 Introduction to chemical Engineering research activities at LGC (J. Bertrand head of research department)
- 9h45 Membrane separation session**
- 9h45 Overview of membrane separation research activities (P. Aimar)
- 10h15 Coffee break
- 10h45 Membrane separation : application on gas treatment (J.C. Remigy)
- 11h15 Membrane separation : application on water treatment (C. Cabassud)
- 11h45 Discussion
- 12h15 Lunch
- 13h30-15h00 Reactive separation session**
- 13h30 Design methods of reactive distillation columns for multi reactive systems (Dr X. Meyer LGC)
- 14h00 New catalytic internals for reactive distillation (Dr D. Rouzineau)
- 14h30 Overview on research activities on reactive separation (Prof. A. Gorak)
- 15h00 Coffee break
- 15h30-17h00 Focus session**
- 15h30 Sulphur compounds in oil refining separation (Dr K. Keskinen)
- 16h00 Tailor-made fuel from biomass (Prof. A. Pfennig)
- 16h30 Micro fluidics applied to LL extraction (Dr L. Prat)
- 17h00-17h30 Conclusions
- 20h00 Dinner**
