Dear Industry Representatives,
dear Professors and PhD Students,

we are happy to announce the meanwhile 7th PhD Student Workshop on Polymer Reaction Engineering and invite you to join us in Prague (Czech Republic). The workshop is going to be held from August 31st – September 2nd 2018 in Prague as a direct follow-up event to the 23rd International Congress of Chemical and Process Engineering ([CHISA 2018](#)).

This PhD Student Workshop was created to give motivated students the chance to present their latest research to a professional audience from the field of polymer reaction engineering. At the same time new contacts to fellow PhD-students as well as industry representatives from interesting companies can be established.

We are looking forward to welcoming you in Prague,

The Organizing Committee
