### EFCE calls for nominations for the Carl Wagner Medal of Excellence in Electrochemical Engineering

The Carl Wagner Medal of Excellence in Electrochemical Engineering is awarded every three years by the Working Party on Electrochemical Engineering (WPEE) of the European Federation of Chemical Engineers (EFCE) to a European researcher under the age of 35 for outstanding contributions to research in applied electrochemistry or electrochemical engineering.

In 2017 the medal will be presented at the 11th European Symposium on Electrochemical Engineering (11<sup>th</sup> ESEE; <http://electrochemical-engineering.eu/2017/>), Prague, Czech Republic, 4-8 June 2017, where the recipient of the medal will be invited to give a lecture. The award also comprises a cash award of EUR 1250, a certificate and a travel grant (not exceeding EUR 500) to attend the 11<sup>th</sup> ESEE.

Nominations for the medal, with supporting documentation (letter of support of the nomination by a senior electrochemist or electrochemical engineer, curriculum vitae, list of publications) should be sent **before January 20, 2017** to the WPEE Chairman:

Prof. M. Rodrigo  
University of Castilla La Mancha  
Faculty of Chemical Sciences & Technologies  
Department of Chemical Engineering  
Edificio Enrique Costa Novella  
University Campus  
13071 Ciudad Real, SPAIN

## About chemical engineers

Chemical, biochemical and process engineering is the application of science, maths and economics to the process of turning raw materials into everyday products. Professional chemical engineers design, construct and manage process operations all over the world. Oil and gas, pharmaceuticals, food and drink, synthetic fibres and clean drinking water are just some of the products where chemical engineering plays a central role.

## About EFCE

Founded in 1953, The European Federation of Chemical Engineering (EFCE) is a non-profit-making association, whose object is to promote co-operation in Europe between non-profit-making professional scientific and technical societies in 30 countries for the general advancement of chemical engineering and as a means of furthering the development of chemical engineering.
