### **Call for nominations - Industrial Innovations in Process Intensification 2019**

The European Federation of Chemical Engineering (EFCE) is pleased to announce the **2019 EFCE Process Intensification Award for Industrial Innovation** to be awarded for an outstanding industrial application in the field of process intensification.

The award comprises of a dedicated plaque and certificate, and the successful candidate or team will be invited to make a presentation at a special session of the 2nd International Process Intensification Conference – IPIC2, which will be held in Leuven, Belgium, on 27-29 May 2019.

Any employee or a team of employees of a company with operations in an EFCE Member Country is eligible for nomination.

The nominated industrial innovation must be either stage of pilot-scale or full-scale industrial operation and it must have been developed between 1 January 2017 and 31 December 2018.

The deadline for submission of nominations is **1 February 2019**.

For further information about the nomination procedure, eligibility, and supporting documentation, visit: [https://www.efce.info/PI\\_Award\\_Industrial\\_Innovation.html](https://www.efce.info/PI_Award_Industrial_Innovation.html)

The Award is generously sponsored by  
**Technip Benelux B.V.**

Ends

## About chemical engineers

Chemical, biochemical and process engineering is the application of science, maths and economics to the process of turning raw materials into everyday products. Professional chemical engineers design, construct and manage process operations all over the world. Oil and gas, pharmaceuticals, food and drink, synthetic fibres and clean drinking water are just some of the products where chemical engineering plays a central role.

## About EFCE

Founded in 1953, The European Federation of Chemical Engineering (EFCE) is a non-profit-making association, whose object is to promote co-operation in Europe between non-profit-making professional scientific and technical societies in 30 countries for the general advancement of chemical engineering and as a means of furthering the development of chemical engineering. See [www.efce.org](http://www.efce.org)

## About the sponsor

TechnipFMC is a global leader in subsea, onshore/offshore, and surface projects. With our proprietary technologies and production systems, integrated expertise, and comprehensive solutions, we are transforming our clients' project economics. To learn more about how we are enhancing the performance of the world's energy industry, go to [www.TechnipFMC.com](http://www.TechnipFMC.com)

TechnipFMC Process Technology is a global network of centers which look after company's expanding portfolio of onshore process technologies in petrochemicals, refining, hydrogen and syngas polymers and gas monetization.
