### **2021 EFCE Student Mobility Award announced**

The European Federation of Chemical Engineering (EFCE) is pleased to announce its prestigious **Student Mobility Award**.

The objective of the award is to promote mobility among European chemical engineering students. The award is presented every two years to the best European students of chemical engineering who have spent one or more semesters studying abroad.

The EFCE Student Mobility Award 2021 will consist of three prizes:  
1<sup>st</sup> Prize: EUR 2,000; 2<sup>nd</sup> Prize: EUR 1,500; 3<sup>rd</sup> Prize: EUR 1,000.

The prizes will be awarded during the 13th European Congress of Chemical Engineering (ECCE13), held in conjunction with the 6th European Congress of Applied Biotechnology (ECAB6) in Berlin, Germany, from 19 to 23 September 2021. The Student Mobility Award also includes an invitation to the Congress and a travel grant of up to EUR 500.

The 2021 EFCE Student Mobility Award is generously sponsored by BASF SE.

All students who are citizens of a European country in which EFCE is represented can apply for the EFCE Student Mobility Award if they have successfully studied for at least one semester ( $\geq 30$  ECTU) in first or second cycle study programmes in chemical engineering in each of two or more different countries.

All documents should be submitted in *English* no later than 2 years after graduation.

Deadline for submission of applications: **1 March 2021**.

For details on the application procedure, supporting documentation and download of the application form, please visit the EFCE website at:

## About chemical engineers

Chemical, biochemical and process engineering is the application of science, maths and economics to the process of turning raw materials into everyday products. Professional chemical engineers design, construct and manage process operations all over the world. Oil and gas, pharmaceuticals, food and drink, synthetic fibres and clean drinking water are just some of the products where chemical engineering plays a central role.

## About EFCE

Founded in 1953, The European Federation of Chemical Engineering (EFCE) is a non-profit-making association, whose object is to promote co-operation in Europe between non-profit-making professional scientific and technical societies in 30 countries for the general advancement of chemical engineering and as a means of furthering the development of chemical engineering. See [www.efce.org](http://www.efce.org)

## About BASF

At BASF, we create chemistry for a sustainable future. We combine economic success with environmental protection and social responsibility. The more than 115,000 employees in the BASF Group work on contributing to the success of our customers in nearly all sectors and almost every country in the world. Our portfolio is organized into five segments: Chemicals, Performance Products, Functional Materials & Solutions, Agricultural Solutions and Oil & Gas. BASF generated sales of €64.5 billion in 2017. BASF shares are traded on the stock exchanges in Frankfurt (BAS), London (BFA) and Zurich (BAS). Further information at [www.basf.com](http://www.basf.com).
