

effects 2026:

2nd European Forum for Engineering & Catalysis Towards Sustainability

Catalysis research with effects – from planning to communication

The 2nd iteration of the young scientists forum *effects*, organized by the Young European Catalysis society, will provide hands-on training on developing and pitching a competitive research proposal.

Key facts

When? 31 August – 4 September 2026

Where? Politecnico di Milano, Milano, Italy

Who? Early career scientists in reaction engineering & catalysis

Abstracts? Until 31 May 2026

By participating in effects 2026, you will

- engage in team work to develop & pitch a catalysis research proposal
- be trained in tools & strategies for project development and science communication
- visit the ENI Research Center in San Donato Milanese
- present your own research in a poster or pitch presentation
- learn from our three international keynote speakers
